

# CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

## Content, Process & Mobile

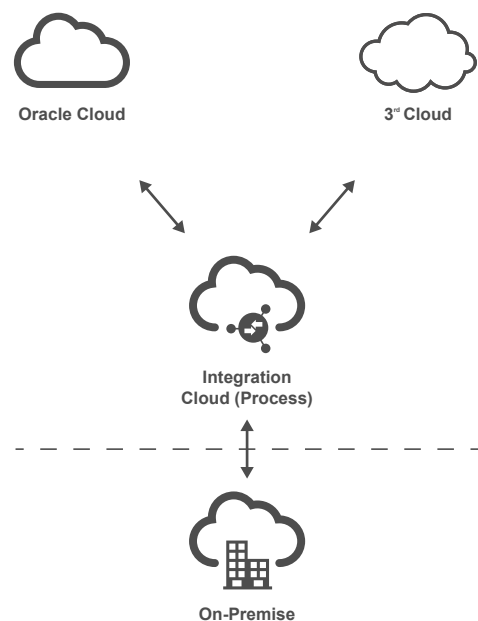

Create and deploy mobile apps and smart chatbots that connect to any back-end system. Streamline processes and facilitate document management to simplify the day-to-day tasks of your employees, clients and partners who need to work from anywhere, any time and from any device.

# Process Automation

Automate your business processes with a simple, visual platform that requires little code. Take advantage of all the benefits of Oracle Cloud -no maintenance costs, pay per use and resources, fast provisioning, high security and 24x7 monitoring- and start offering your services anywhere, anytime and from any device.

### Pack steps

- Configuration of the Cloud components: Oracle Integration Cloud (OIC).
- Architecture design including Cloud Service.
- Security model that includes the service in the cloud.
- Development of a basic BPMN business process in OIC.
- Maximum 2 Web forms.
- Functional and loading tests.
- Documentation.
- Development and best practices guide.
- Training for developers and administrators.
- Optional maintenance and support.

Implementation

4 weeks
