

CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

IaaS

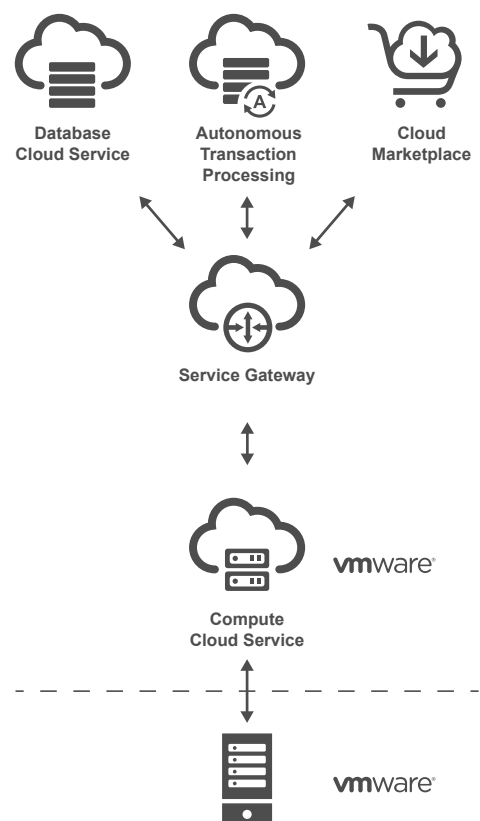

Deploy and execute any workload on the IaaS of Oracle Cloud, a business level, high-performance and cost-effective infrastructure, administered and supported by Oracle. It covers storage, nodes (bare metal, GPU and virtual machines), containers and cloud services aimed at improving communications with your data center.

VMware to the Cloud

Oracle Cloud VMware Solution enables clients to move workloads from VMware to Oracle Cloud without the need for any change, providing a native cloud environment managed by the client, and offering complete control with familiar VMware tools. It also allows transparent integration with all OCI services.

Pack steps

- Provision of Oracle Cloud VMware Solution.
- Definition of target architecture.
- Configuration of VMware HCX and connectors.
- Migration of applications and / or databases to OCI.
- Integration of management components.
- Functional tests.
- Knowledge transfer.

Implementation

2-3 weeks
