

Momentum[®] Acquisitions

A functional overview

Momentum Acquisitions supports the entire procurement lifecycle — from acquisition planning to closeout — and provides reporting tools, flexible business rules, configurable workflows and an end-to-end electronic contract file. Momentum Acquisitions is designed specifically for the federal government contracting professional.

It uses federal terminology, processes, forms and workflows that enable federal organizations to maintain Federal Acquisition Regulation and agency compliance. It provides front-end configuration options, allowing agencies to easily adapt business processes without development, which are maintained throughout COTS upgrades.

Acquisition Planning and Requirements Definition

- Centralized, electronic contract file.
- Procurement milestones and tracking.
- Purchase Requests with line-item detail, attachments and support for commitment accounting.
- Workload assignment, management and tracking

Sourcing

(Synopsis, Solicitation, Source Selection and Evaluation)

- Support for Request of Quote, Request for Proposal, Invitation for Bid and Fair Opportunity Notices solicitation types.

- Built-in FAR and non-FAR based forms, including: SF18, SF33, SF1449, SF1442, SF30 (amendments) with Uniform Contract Format, Construction Specifications Institute and commercial layouts.
- Uniform Contract Line structure including all FAR-supported contract types.
- Unique Procurement Instrument Identifier (PIID) document numbers and support for configurable document numbering.
- Out-of-the-box integration of System for Award Management-supported contract opportunity announcements.
- Rules-based, intelligent Terms and Conditions selection with fill-in data.

- Best Value source selection with an evaluation team, including support for factors, subfactors, elements, findings, evaluation notices, adjectival ratings, consensus ratings and comparisons.

Award

- Support for definitive contracts, purchase orders, indefinite delivery vehicles, delivery and task orders, blanket purchase agreements and BPA calls, basic ordering agreements and associated orders, GWAC/ FSS and other external orders.
- Support for Multiple Award Contracts and subsequent fair opportunity notice processes.
- Built-in FAR and non-FAR based forms, including SF26, SF33, SF1449, SF1442, SF252, OF347 and DD1155 with Uniform Contract Format, Construction Specifications Institute and commercial layouts.
- Uniform Contract Line structure including all FAR-supported contract types.
- Unique Procurement Instrument Identifier document numbers and support for configurable document numbering.
- Rules-based, intelligent Terms and Conditions selection with fill-in data.

- Support for capturing obligations that are fully funded, partially funded, incrementally funded and subject to the availability of funds.
- Contracting officer warrant validation.
- Electronic and digital signature including support for personal identity verification/common access card credentials at signature.

Post Award (Administration and Closeout)

- Support for formal modifications (SF30) and informal changes to executed awards and orders.
- Support for novation, cancellations and terminations.
- Support for protests and disputes.
- Ability to apply the same change across multiple awards in a single action – mass modifications.
- Ability to have multiple draft modifications in process at the same time – concurrent modifications.
- Ability to capture vendor performance assessments.
- Support for contract closeout and contract settlement processes, including contract closeout checklists and tracking of retention timelines.

Key features

- COTS configuration layer that allows administrators to turn on and off capabilities through user interface, not custom code.
- Extensibility framework that allows tailoring of data and workflows to support unique business processes and persist through COTS upgrades.
- Extensible system validations, including support for presenting validations from external systems such as the Federal Procurement Data System or agency financial management systems.
- Regulatory updates including Federal Acquisition Circular clause and clause rule updates.
- Out-of-the-box integrations:
 - SAM:
 - Vendor data
 - Contract Opportunities
 - Real-time representatives and certifications (reps and certs)
 - Real-time vendor eligibility
 - FPDS – Real-time integration to initiate and complete Contract Action Report and automatically finalize upon successful processing of award or modification.

About CGI

Insights you can act on

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. We are insights-driven and outcomes-based to help accelerate returns on your investments.

Nearly 7,000 of our experts help the U.S. federal government achieve comprehensive, scalable and sustainable IT and business goals. We enable our clients to execute digital transformation, build the federal workforce of the future, achieve operational excellence, enhance citizen engagement and protect America's assets.

As the federal government faces unprecedented challenges, we remain committed to enabling its success, using our deep understanding of our clients' goals and mission-essential needs to provide consultative insights and develop solutions for maximum results.
