

CGI All Payments: Accelerate your payments transformation

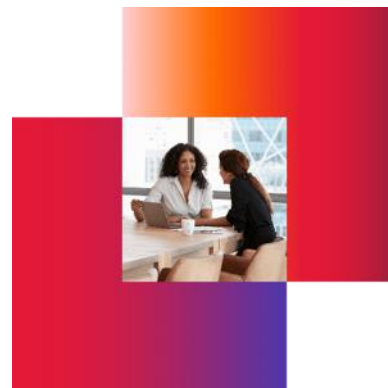

CGI All Payments transforms your payments environment into an efficient, full-service, money-moving operation, enabling finance institutions to achieve real-time, domestic (wire and ACH), and cross-border payments while meeting compliance mandates.

Our modern and modular solution is built on global industry standards to help finance institutions future proof their payments business, while also increasing revenue by reducing transaction costs and time to market for new revenue streams.

CGI All Payments is designed to keep pace with evolving customer expectations, industry standards and compliance mandates. With seamless access to the latest payment channels, the solution helps finance institutions drive revenue, stand out in a competitive market, and confidently scale for the future.

Benefits

- **Global:** Seamlessly supports multi-currency, multi-language and unlimited payment channels worldwide
- **Extendible:** Enables you to add or replace only the payment functionality and clearing networks you need through a modular architecture
- **Flexible:** Supports full deployment across multiple ecosystems, whether in the cloud, on-premises or hybrid
- **Scalable:** Delivers on-demand performance, dynamically scaling to meet increased volumes while optimizing costs through enhanced operational efficiency
- **Optimized:** Offers an intuitive interface with dynamic dashboards and workflow visibility, enabling staff to implement on-the-fly payment rule changes with consistent data presentation for an enhanced user experience
- **Intelligent:** Enables workflow pattern matching and auto repair through process automation, balancing exception processing requests with internal targets to improve straight-through processing (STP) rates

CGI is a company of firsts in the payments industry

We anticipate and proactively drive payments innovation to help clients become market leaders:

- As a trusted advisor for decades, we guide clients on their payments journey—from assessing where they are today to taking them where they want to go.
- Our relationships with our top 10 banking clients across the globe span an average of 27 years.
- We process 40% of global FX settlement volumes.
- We process more than 20% of SWIFT payment transactions.
- We handle more than 35% of all U.S. wire-based transaction volumes (~\$3 trillion to \$5 trillion USD per day).

CGI All Payments

Features

CGI All Payments delivers a flexible, cloud-proven technology stack that seamlessly integrates best-in-class products into a robust payments hub. Designed for choice and scalability, it offers on-premises, SaaS and cloud deployment options to match your current needs and future growth. As an independent provider, CGI delivers a cloud-proven solution fully deployable across major platforms like AWS, Microsoft Azure and Google Cloud—driving flexibility, agility and performance.

- **Accessible:** Full API enablement increases back-office efficiencies and enhances the front-end customer experience.
- **Efficient:** Embedded machine learning and data analytics capabilities drive future automation.
- **Transparent:** Event-driven dashboards provide business and IT with operational and business metrics reporting, empowering users to efficiently manage exceptions while using embedded machine learning and data analytics capabilities to drive future automation.
- **Cohesive:** Re-useable frameworks are leveraged across low-value, high-value and real-time payments to support liquidity, message parsing and transformation.
- **Compliant:** ISO 20022 compliance is delivered out of the box, supporting today's needs while providing the flexibility to meet future mandates.
- **Secure:** High levels of security through industry-standard authentication protocols and advanced encryption technologies safeguard all payment data and transactions.

Why CGI?

With deep industry expertise, we embed decades of payments knowledge directly into our CGI All Payments platform. This foundation empowers clients to accelerate their payments journey—introducing innovative services, increasing processing speed, reducing costs and improving transparency.

CGI All Payments is a flexible platform that handles leading payment types—anytime, anywhere—regardless of the settlement and clearing network it's operating on. Developed as a modern, integrated and flexible payment services hub, it offers everything you need to transform your payments environment into an efficient, full-service, money-moving operation that adds value for your customers and improves your bottom line.

CGI All Payments is a trademark or registered trademark of CGI Inc. or its related companies.

CGI All Payments delivers a flexible, cloud-proven technology stack that seamlessly integrates best-in-class products into a robust payments hub.
