

Momentum®

Bringing Accountability and Efficiency

Remaking the federal government requires financial integrity and operational efficiency. Success demands federal agencies provide Treasury with the comprehensive, standardized data it needs to apply controls. Delivering this data can be a challenge for agencies due to non-standard processes and a lack of financial management (FM) resources. CGI and Momentum provide the capabilities, scale, and experience to ensure agencies are accountable, comply with applicable regulations and standards, and provide financial transparency to the American people. We have a long track record of getting CFO Act agencies to accountability and efficiency in consolidated implementations, and our shared services demonstrate the path to rapidly incorporate non-CFO Act agencies in a single service offering.

The Partner of Choice to Deliver Accountability with Speed

FM QSMO Approved

- Standardized terminology and data elements aligned with federal Integrated Business Framework
- Assured compliance with ever-changing mandates and requirements
- Approved two years before the second core Core Financial System (FS) was approved

Integral to Agency Compliance

- CGI as product owner and primary implementer provides a single entity for assuring speed of directive implementation
- Strong working partnerships with Treasury and GSA make Momentum the first product to incorporate government initiatives (G-Invoicing, Unique Entity Identifier, etc.)
- Momentum User Group is a frequent forum for Treasury, GSA, and agency collaboration on initiatives

Eliminate Fraud, Waste, and Abuse

- OOTB integration with Treasury's Do Not Pay
- Standardized processes, data, and integrations ensure Treasury access to the data needed to safeguard the General Fund
- APIs and partner tools used by agencies to identify potential FWA prior to payment creation

Shared Service

- Executive branch advisory committees and others use Momentum in GSA's Pegasys Financial Services
- Legislative branch agencies use Library of Congress's Momentum shared service
- Department of State provides overseas disbursing and collection services for 45 federal bureaus with global missions in 135+ currencies using Momentum

Commercial Innovation for Federal Efficiency

Automated Productivity

- Streamlined user experience with built-in automation and exception-based processing
- Virtual assistant chatbot and AI-enabled capabilities

Analytic Insights without Silos

- Fully integrated financial and acquisition data provides insight across business functions
- Advanced analytic capabilities for visualization, drill-down, and prediction

Business Agility

- Agencies easily adapt to changing business needs and meet new federal mandates with front-end configuration allowing agencies to buy COTS and stay COTS

Federal Core Financial Systems

	Approved in FM QSMO Marketplace ¹	Purpose-built to meet federal requirements ²	Developed and maintained exclusively in USA ³	In use as a federal shared service in the FM QSMO Marketplace ⁴	Widely used across federal government ⁵	Product owner is FM QSMO Marketplace approved provider ⁶
Momentum						

¹Momentum became the first commercial Core FS approved in the FM QSMO Marketplace in 2023. An Oracle ERP-based solution became the second in 2025. Oracle EBS and SAP do not have approved commercial Core FS solutions.

²Momentum was NOT originally developed for commercial customers and retrofitted for the federal market.

³Momentum is 100% developed and maintained from on-shore delivery centers across the USA.

⁴Momentum and Oracle EBS-based solutions are used by FM federal shared service providers included in the FM QSMO Marketplace. Oracle ERP and SAP do not have FM solutions used by FM federal Shared Service Providers listed in the FM QSMO Marketplace.

⁵Momentum, Oracle EBS, and SAP are the most used core FM systems across the federal government. Momentum is in use at 98% of judicial entities, 82% of legislative agencies, and 43% of federal civilian and intelligence community agencies.

⁶CGI is the FM QSMO Marketplace approved provider for Momentum, providing a single entity for assuring speed of directive implementation and a unique incentive to meet changing federal mandates.

About CGI Federal

CGI Federal Inc. (CGI), a wholly owned U.S. operating subsidiary of CGI Inc., is a leading technology and professional services company that serves federal agencies across defense, civilian, healthcare, justice, intelligence and international affairs.
