

FinOps: Transformative Financial Optimization

CGI

CGI combines innovation with robust technology to lead the FinOps sector.

Our custom-made services, tailored to unique client requirements, draw on CGI's global insights for an all-encompassing financial strategy.

We embed data privacy at the core of our offering, employing rigorous encryption and compliance with international standards to protect your financial data.

Choose CGI for a transformative approach where financial excellence aligns with secure technological innovation.

Elevate your financial operations with CGI's FinOps services, optimizing costs and boosting governance in your cloud environment.

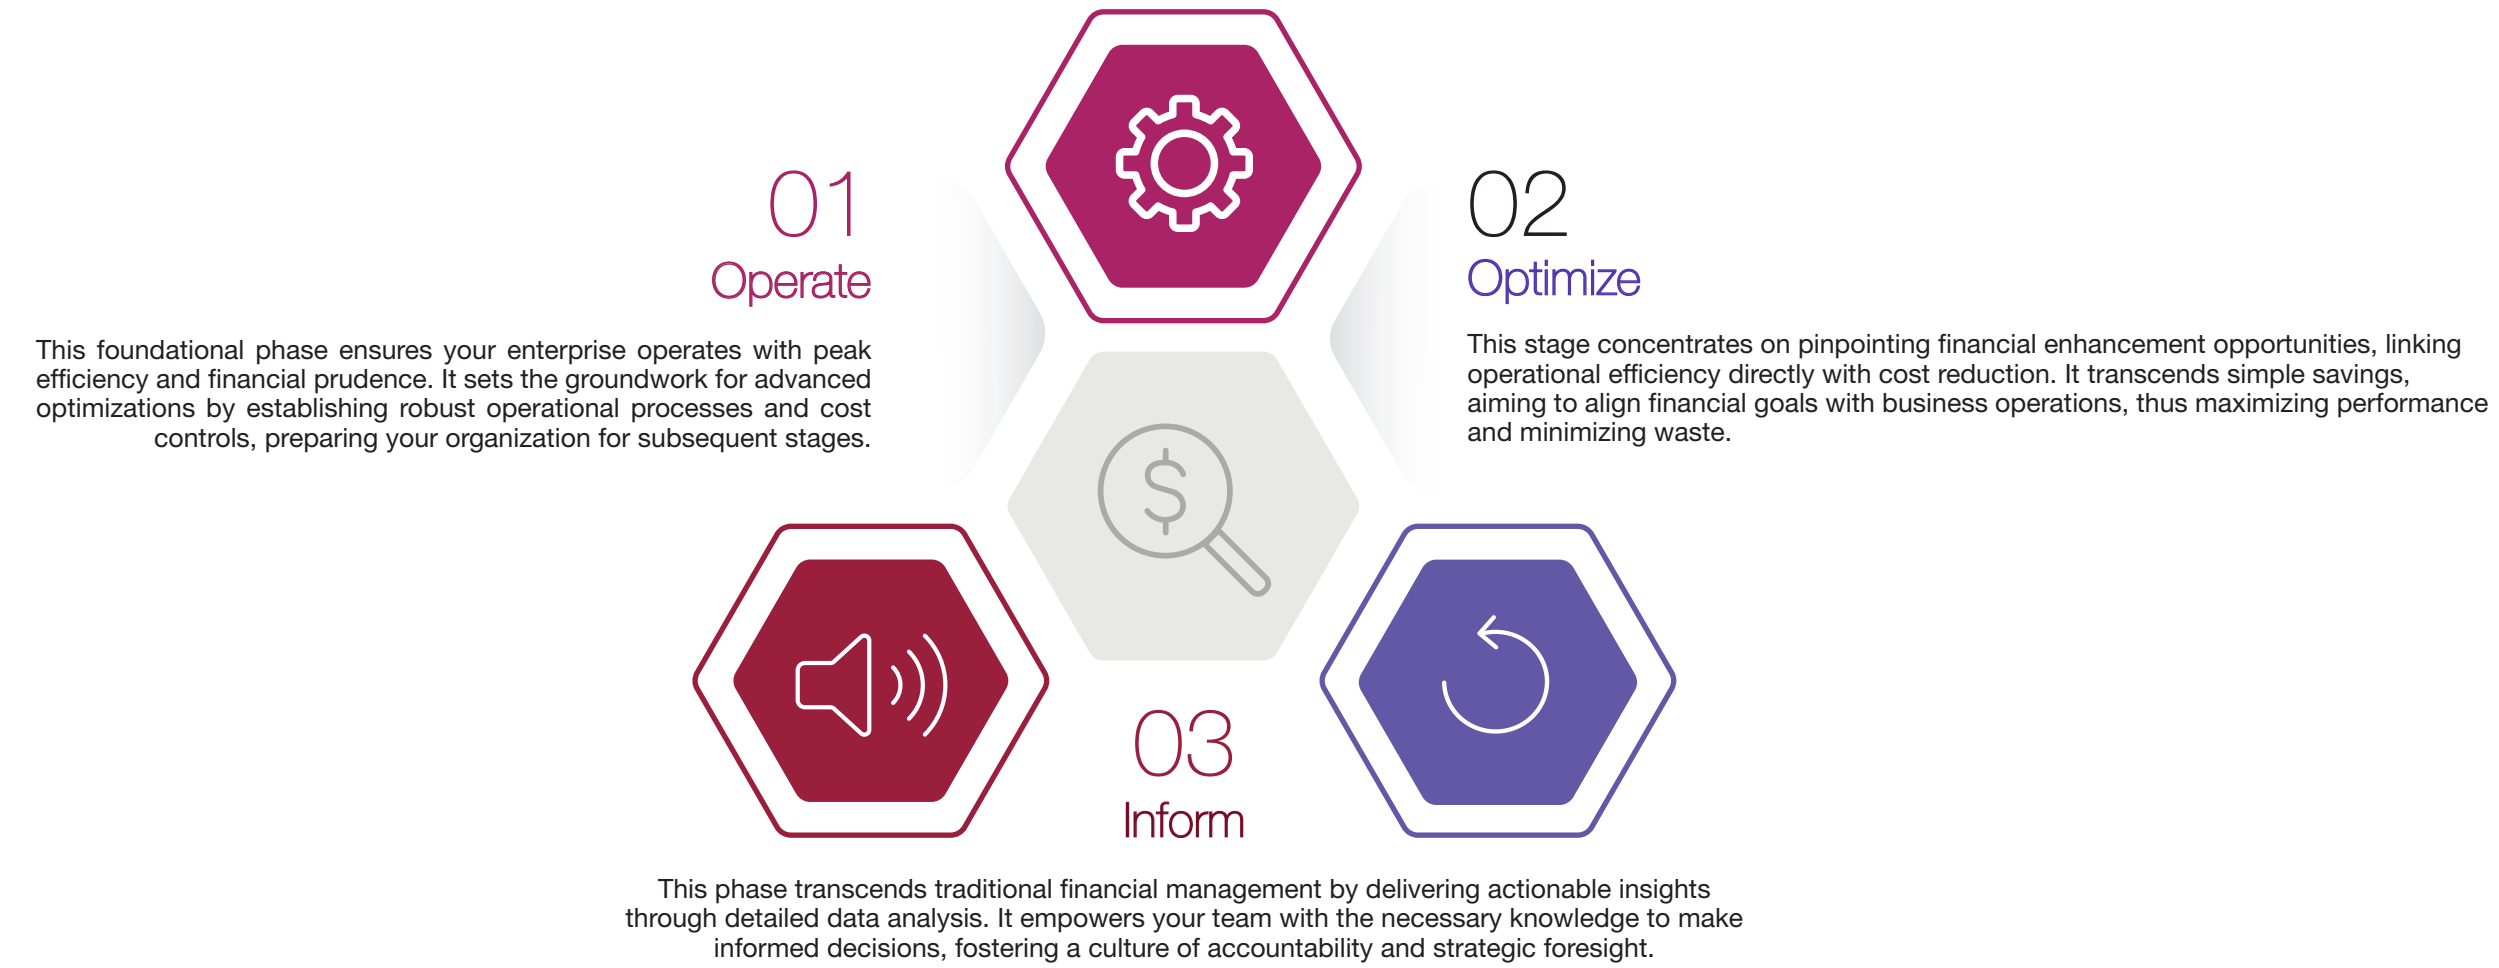

Concerns we hear from our clients about managing their financial operations

- Our organization is currently facing unexpected overruns in our IT budget and unrealistic forecasts, which are escalating our costs and complicating financial planning.
- You experience frequent surprises in your monthly financial summaries due to the absence of real-time financial data access.
- There appears to be a deficiency in financial accountability among decision-makers within our company.
- Uncertainty surrounds our vendor contracts because of non-transparent expenditure tracking.
- We lack confidence in our consumption metrics, which are essential for conducting vendor audits.
- Our organization struggles to efficiently optimize both hybrid and cloud resources to meet our business objectives.
- It is imperative to simplify complex IT billing structures into clear, impactful financial metrics and key performance indicators (KPIs).
- We face significant compliance issues in the cloud and are unsure how to overcome these obstacles.
- Without a modern FinOps framework, our company is losing sight of expense tracking and Return on Investment (ROI).

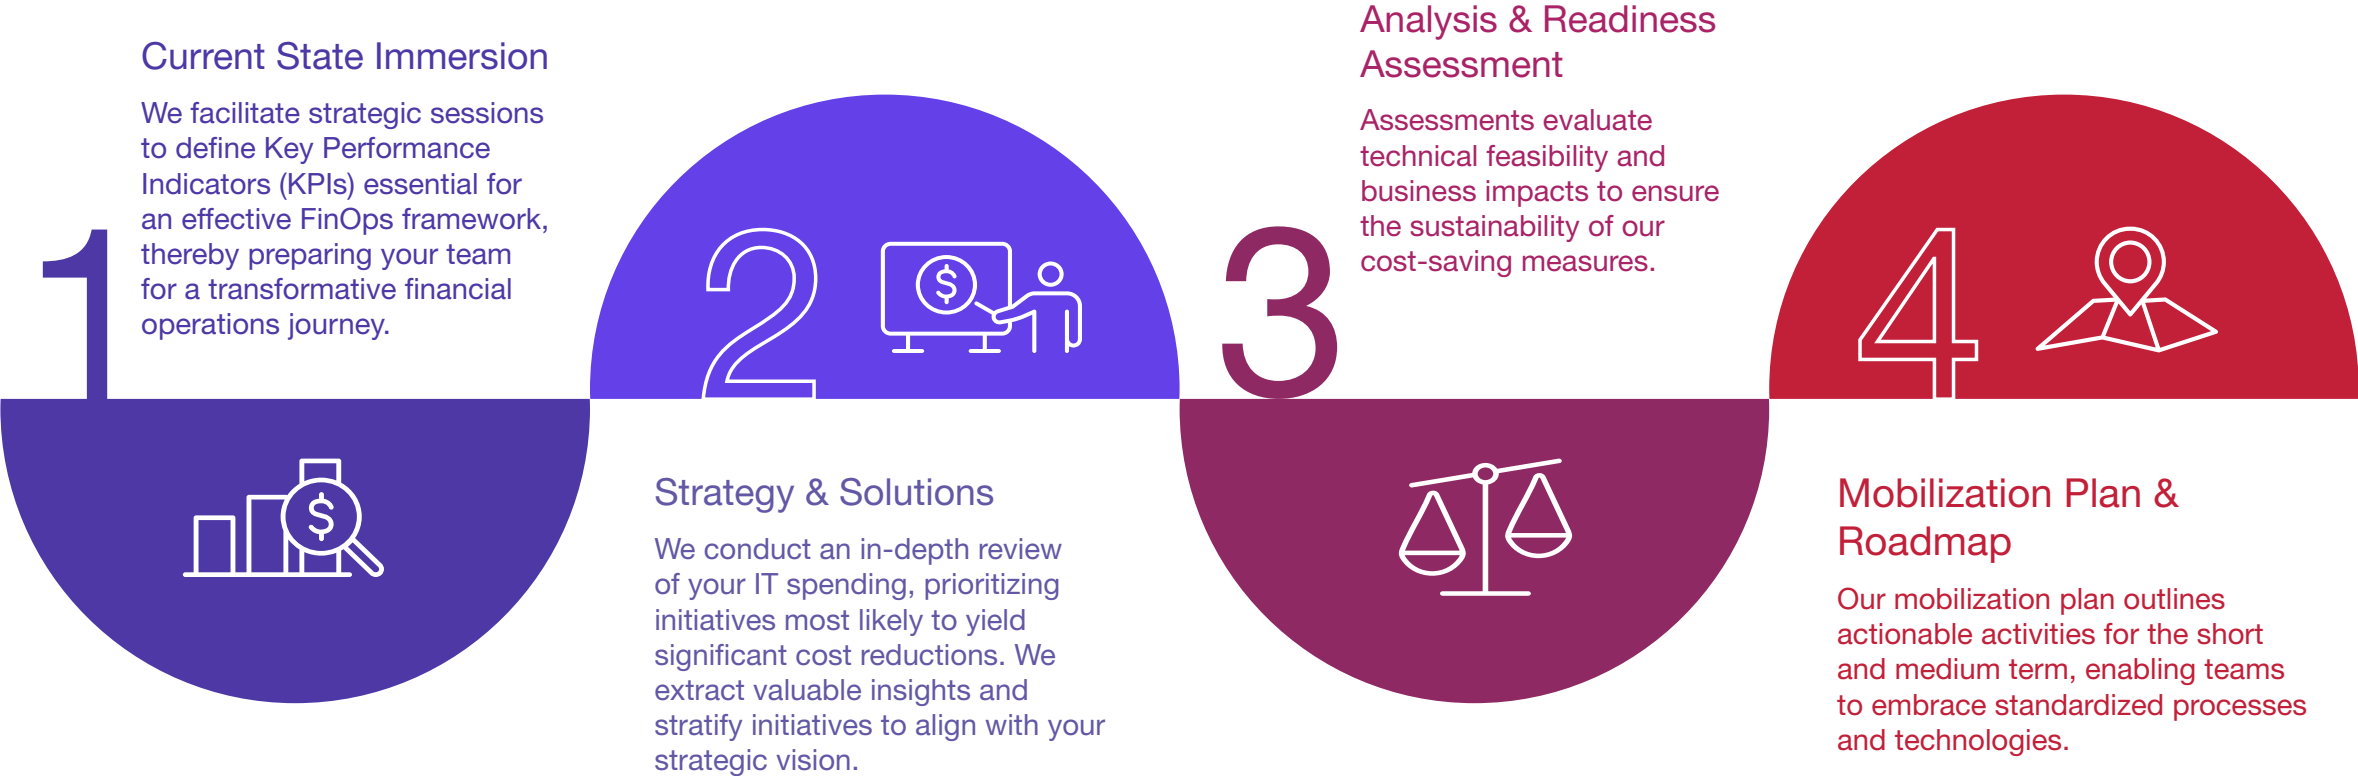

Pillars of FinOps

With our service, we guarantee a tailored, strategic, and data-driven approach to FinOps, ensuring that your enterprise not only sustains but thrives with optimized financial operations and a sharper competitive edge. Before we initiate our engagement, we incorporate our proven methodologies and frameworks for FinOps:

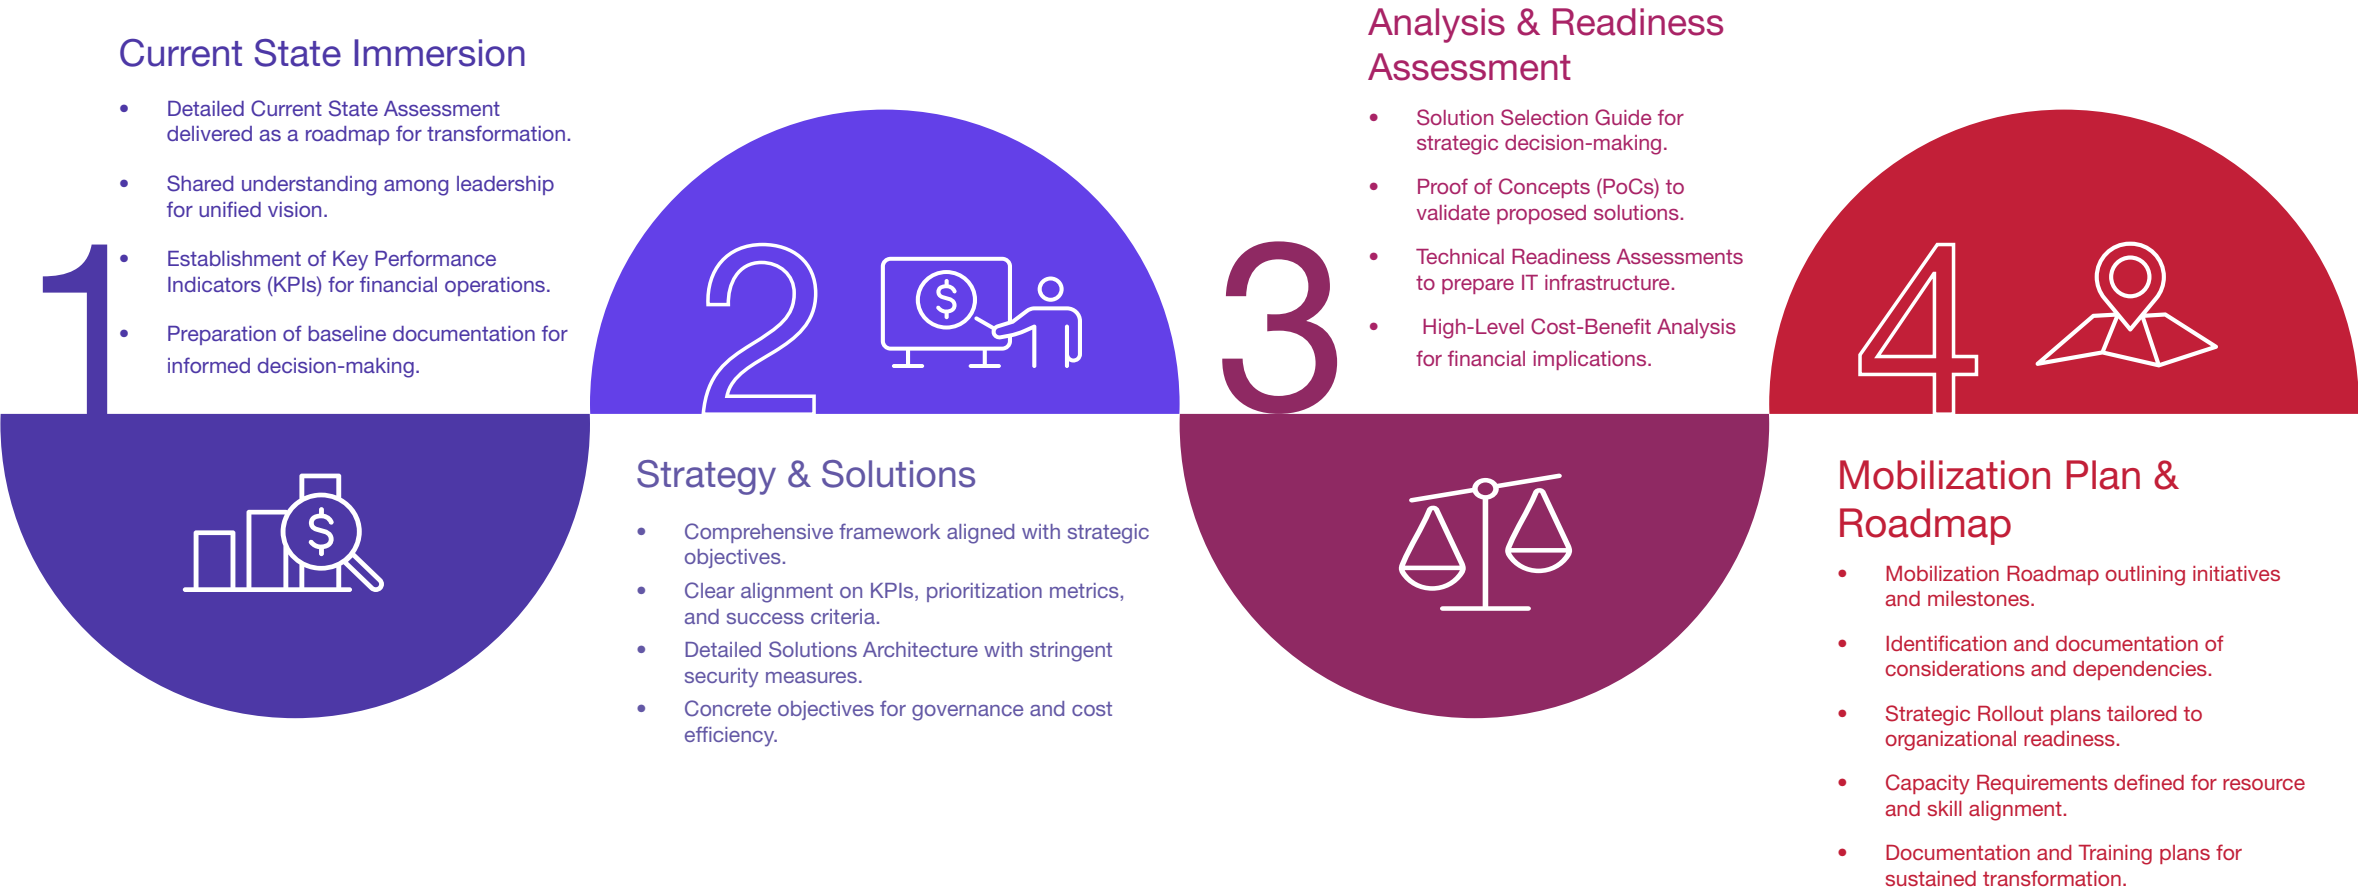

CGI's FinOps Delivery

Whether you're looking to optimize technology spending, enhance budgetary control, or drive data-driven decision-making, CGI's FinOps Accelerator program is your gateway to transformative financial optimization.

CGI's FinOps Delivery Outcomes

Whether you're looking to optimize technology spending, enhance budgetary control, or drive data-driven decision-making, CGI's FinOps Accelerator program is your gateway to transformative financial optimization.

Day 2 – Continuous Evaluation

Continual Evolution: FinOps Mastery with a Guided Edge

As your organization approaches the key milestone of the initial FinOps transformation, you are now at a critical junction. Armed with a strategic roadmap, you possess the tools to direct the future of your financial operations. This roadmap not only reflects our progress but also highlights the opportunities that lie ahead. Equipped with extensive tools and insights, you are prepared to navigate the journey ahead. However, as you embark on Day 2, consider the advantages of maintaining our partnership.

Continuous Evaluation: Expert Guidance for Ongoing Success

At CGI, Continuous Evaluation goes beyond standard assessment. It's an advanced process guided by our expert team. While the roadmap sets the foundation, our architects further enhance it, developing a robust financial operations structure that's both efficient and powerful.

Strategic Insights: Advanced Analytics for Superior Decisions

While your in-house capabilities are strong, CGI's deep analytics and precise insights can transform your strategic decisions from solid to exceptional. Our expertise in turning complex data into actionable intelligence offers a significant edge in the fast-paced market.

Cost Optimization: Unlocking Sophisticated Savings

CGI's cost optimization is a continuous journey towards fiscal innovation. Our approach transcends basic savings, delving into your business's financial core to discover and apply sophisticated strategies that provide enduring value.

Day 2 – Continuous Evaluation

Technical Adaptation: Leading with Change

As technology evolves, so does the challenge of integration. With CGI, navigate these advancements not only with ease but with foresight. Partnering with us ensures your FinOps framework is not only up-to-date but also future-ready.

Training and Development: Achieving Mastery Beyond Proficiency

CGI aims to empower your team towards self-sufficiency with a focus on mastery through ongoing training and development. Our dedication to enhancing your team's skills ensures that your operations excel, not just function

Your Path Forward: Succeed with a Proven Partner

As you consider your future in FinOps, remember the path requires deep understanding and strategy. With CGI, you gain more than guidance—you gain a committed navigator. Our relentless support and extensive expertise provide a significant advantage, not just a service.

Benefits of CGI's FinOps Offering

Industry-Specific Expertise

CGI's FinOps services leverage deep industry knowledge in sectors such as Insurance & Banking, Retail, Media & Telecom etc., Delivering customized solutions that effectively address the unique financial operations challenges specific to each sector.

Customized Financial Management

CGI offers comprehensive and personalized FinOps solutions that extends beyond cost optimization, seamlessly integrating tailored financial management into the overall business strategy by prioritizing both operational efficiency and cost of operations.

Innovative Technology Integration

CGI stands out by incorporating emerging technologies and methodologies in its FinOps services, empowering clients to nurture a FinOps culture and benefit from the latest advancements in financial management tools and practices.

Global Perspective

With a global presence and expertise in implementing FinOps for various geographic locations and technologies, CGI's FinOps services offer a unique perspective, considering diverse financial regulations, market dynamics, and technological landscapes to deliver globally relevant solutions.

Why do our clients trust us?

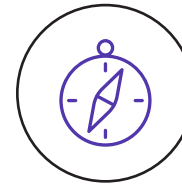

Experience

- Industry Tailoring: Custom FinOps solutions for sectors like Insurance, Banking, and Media.
- Global Insight: Deliver solutions mindful of diverse regulations and market dynamics.
- Strategic Alignment: Align IT spending with business goals for efficiency and effectiveness.
- Proven ROI: Demonstrate success in delivering tangible financial returns.
- Success Stories: Established track record with leading global firms.

Value

- Maximized Value: Drive significant cost savings in hybrid and cloud infrastructures.
- Insightful Analytics: Provide advanced analytics for superior decision-making.
- Expert Navigation: Guide clients through complex financial landscapes.
- Operational Excellence: Achieve peak operational performance and efficiency.
- Continuous Improvement: Focus on continuous enhancement of financial processes.

Partnership

- Reliability: Deliver consistent, high-quality FinOps services.
- Transparency: Ensure clear communication and visibility into financial operations.
- Collaborative Approach: Work closely with clients and vendors for tailored solutions.
- Long-term Commitment: Invest in sustainable, long-lasting relationships with clients.
- Proven Track Record: Demonstrate a history of successful partnerships and client satisfaction.
