

NASA Solutions for Enterprise-Wide Procurement VI (SEWP VI) Ordering Guide

About CGI Federal

CGI Federal is a NASA SEWP VI contract holder under Category B – Enterprise-Wide Information Technology, Communications, and Audio Visual (ITC/AV) Service Solutions. Under SEWP VI, CGI expands our ability to support Federal Agencies with transformative modernization services through the following:

- **Enterprise-Wide Strategic ITC/AV Solutions**
- **Professional and Technical Services**
- **CGI Proprietary Solutions and Intellectual Property** (Momentum and Sunflower platforms)
- **Emerging Technology Delivery**
- **Comprehensive Program Support**

CGI is ready to support federal agencies in navigating modernization, strengthening mission performance and deploying technology more effectively under SEWP VI. Through this contract, agencies gain direct access to CGI's full suite of technology services, modernization expertise, and proven delivery capabilities.

For SEWP-specific inquiries, ordering guidance, or agency support, please contact CGI Federal's SEWP Program Team

About NASA SEWP VI

NASA SEWP VI is a multi-award GWAC providing the next generation of IT acquisition for U.S. federal agencies. It has expanded beyond traditional product procurement to include full-scope technology services, integration support and enterprise-wide modernization services. SEWP VI has a 10-year ordering period (Nov 1, 2026, through Oct 31, 2036), supports multiple contract types including hybrids, and has a low administrative fee of 0.34%.

For additional NASA SEWP VI information please visit the NASA SEWP VI website at www.sewp.nasa.gov/sewpvi.

How to obtain a quote for hardware, software or services

1. Customer identifies their requirements
2. Customer submits their Request via the NASA SEWP Quote Request Tool (QRT)
3. Contract Holders are notified of the request and submit their quote for the RFI/RFQ via the QRT
4. Customer makes a best value determination on quotes received and submits documentation to SEWP
5. SEWP processes documentation and assigns a SEWP Control Number (SCN) to the Request and sends to Contract Holder
6. Contract Holder receives and confirms the order from SEWP, processes and delivers the order

How to troubleshoot a problematic order

For any issues related to an order contact the POC listed in the order. If an issue is not resolved or further guidance is needed, contact the NASA SEWP VI program office at 301-286-1478 or help@sewp.nasa.gov.
