

CGI Advantage[®] ERP Built-for-government

For state and local governments, enterprise resource planning means more than technology. It means transformation that increases efficiency, transparency, accountability and information access.

Many public sector organizations struggle with ERP solutions that do not meet their needs, support their business or match their processes. As a result, they face extensive customizations, process modifications and unpredictable costs.

CGI solves the challenge

CGI Advantage ERP is a powerful combination of modern technology and integrated business applications that are specifically built for government use. The solution complies with GASB and GAAP and includes government-specific functionality such as CAFR and CMIA processing to increase automation and information access. Because CGI Advantage ERP is highly configurable, it reduces customization to lower total cost of ownership.

Proven approach

CGI has built deep domain expertise, process knowledge and best practices through more than 40 years of delivering ERP software and services for state and local government. In fact, we are the only leading independent IT and business process services firm that develops, implements, supports and hosts integrated ERP software exclusively for government.

Our approach reflects:

- 100% product investment focused on public sector needs
- Public sector clients who have a significant voice in product direction
- Product professionals who are 100% dedicated to government

"We asked ourselves, what are our non-negotiables, the things we cannot live without? The answer was clear—built for government functionality, modern technology, integration. And a partner committed to our needs. CGI and (CGI Advantage) ERP was the answer."

**Johnna Rogers, Deputy County Manager and Chief Financial Officer,
Wake County, North Carolina**

SUPPORTS UNIQUE GOVERNMENT NEEDS

CGI Advantage ERP accelerates benefits with built-for-government functionality and best practices—all out of the box:

- Large, multi-stakeholder environments
- Multiple budget sources
- Multi-year budgeting and funding control
- Variable funding control structures
- Encumbrance and pre-encumbrance accounting
- Dedicated Comprehensive Annual Financial Report (CAFR) Module
- Assignment of government chart of accounts attributes
- Comprehensive reporting for transparency and compliance
- Complex acquisition requirements
- Configurable to address government regulations and union mandates
- Increased measurement of key performance indicators

CGI ADVANTAGE ERP AT A GLANCE

With integrated functionality, workflow and configurable processes, the CGI Advantage ERP suite contains built-for-government software for:

- **Financial management** to provide organization-wide accountability through consistent accounting rules across all financial transactions, to track and control internal and external funding sources and fiscal and multi-year budgets.
- **Performance budgeting** to automate the budgeting process for better planning that will improve financial and operational performance and critical decision making for day-to-day efficiency and long term forecasting.
- **Human resource management** to streamline the HR and payroll process from hire to retire including online recruiting, timekeeping and direct access for employees to manage benefits and leave.
- **Procurement** to automate purchasing via catalog-based ordering and paperless approval processes that link directly to the government accounting system for automated matching and payment processing.
- **Case management** to automate and transform processes for creating and managing cases to provide workflow automation, document management, party management, collaboration and risk and performance reporting capabilities bundled together in a business administration engine.
- **Collections** to automate correspondence, liens, garnishments and judgments and consolidate all types of debts to increase revenues without raising taxes.
- **Regulatory management** to consolidate and automate the full permitting and licensing process and streamline the fee and billing process while providing a method to further ensure compliance.
- **Business intelligence** to quickly unlock data for more effective decisions and increased measurement of key performance indicators through sophisticated reporting, ad hoc query and visual, interactive dashboards.

Why CGI?

- Built-for-government solution
- Single provider accountability
- Proven results

Benefits:

- Operational efficiency
- Decreased cycle time
- Greater collaboration
- Increased transparency and insight
- Minimized customizations
- Modern technology

ABOUT CGI

Founded in 1976, CGI is one of the largest IT and business process services providers in the world, delivering high-quality business consulting, systems integration and managed services. With a deep commitment to providing innovative services and solutions, CGI has an industry-leading track record of delivering 95% of projects on time and within budget, aligning our teams with clients' business strategies to achieve top-to-bottom line results.

We deliver built-for-government IT solutions that maximize revenue while minimizing costs. As a full-service systems integrator and managed services provider, CGI has the industry know-how, tools and technologies to address business challenges across the public sector spectrum.

CGI's leading ERP solution, CGI Advantage, helps state and local governments improve their back-office operations and better serve their citizens with a full suite of built-for-government tools, including financial management, payroll, budgeting, human resources management, procurement, grants management, case management, collections and regulatory management.

Whether your goals are to increase efficiency, transparency and accountability or to improve usability and citizen service, CGI has the solution to deliver results.
