

CGI Advantage360®

The future of ERP for schools and local government

Local governments and K-12 schools seek to improve efficiency and services while reducing the capital investment and organizational challenges required to modernize and maintain their enterprise resource planning (ERP) systems.

DO THESE CHALLENGES SOUND FAMILIAR?

- Rising costs and risks of maintaining aging systems
- Managing teacher payroll for 10 months
- Decentralized management and procurement
- Stagnant or declining budgets
- Keeping up with GASB requirements
- ERP failing to keep up with demands

IT'S TIME TO TRANSFORM YOUR ERP

School districts, states, counties, and cities have improved operational efficiency, service quality and transparency with the leading built-for-government solution, CGI Advantage ERP. The CGI Advantage360 ERP suite provides benefits to mid-tier public sector entities with our software-as-a-service (SaaS) delivery model. The SaaS delivery model provides additional affordability and cost predictability to CGI Advantage360 clients.

CGI Advantage360 encompasses pre-configured software, support and services all specifically designed and developed for the needs of the mid-sized public sector market. The offering provides a solution that grows and evolves over time, while balancing our clients' needs for price, flexibility and functionality.

CGI ADVANTAGE360 BENEFITS

- Reduces operational costs using a multi-tenant, cloud-based solution
- Reduces implementation cost and risk with a proven ERP solution that is based on best practice business processes designed specifically for public sector entities
- Provides rapid deployment using standardized, preconfigured data, reducing implementation time by at least 50% compared to traditional implementations

CGI ADVANTAGE360

- Includes regular updates to meet changing regulatory and business needs
- Achieves long-term predictable spend and improved service levels, allowing clients to redirect valuable resources to other activities

DOMAIN EXPERTISE AND COMMITMENT TO THE PUBLIC SECTOR

CGI has built deep domain expertise, process knowledge and best practices through 40 years of delivering ERP software and services for K-12 schools, states and local governments. We are the only leading independent IT and business process services firm that develops, implements, supports and hosts integrated ERP software exclusively for the public sector.

As such, CGI's product investment is 100% focused on public sector needs. Our active client user community plays a significant role in product direction and our product professionals are dedicated solely to improving the business of government.

CGI ADVANTAGE360 – SINGLE-PROVIDER ACCOUNTABILITY

When organizations want to advance their ERP capabilities without the cost and difficulty of attracting and retaining ERP skilled resources, CGI has the resources, expertise and commitment to deliver. CGI Advantage360 clients benefit from greater cost predictability, access to talent and next-generation capabilities, lower total cost of ownership and single-provider accountability for software and services.

"The greatest value that CGI will bring to Prince William County Public Schools is the ability to have sufficiently and effectively operate both our financial and human-resources systems because again from an organization our focus really needs to be on students and student achievement, but at the same time for those of us on the business side the reality is we have to make sure that we can do business effectively and efficiently."

— Dave Cline, Associate Superintendent for Finance & Support Services, Prince William County Schools, CGI Advantage client for over 24 years

ABOUT CGI ADVANTAGE

CGI's leading ERP solution, CGI Advantage, helps schools, states and local governments improve their back-office operations and better serve their citizens with a full suite of built-for-government tools, including financial management, payroll, budgeting, human resources management, procurement and grants management.

Whether your goals are to increase efficiency, transparency and accountability or improve usability and citizen service, CGI has the solution to deliver results.
