##### **CGI helps The Beer Store fight leukemia**

In June 2010, CGI signed its first contract with The Beer Store— a seven-year, multi-million dollar agreement to provide managed services to the primary distribution and sales channel for beer in Ontario.

Our support for our new client extends beyond IT. In May, more than a hundred CGI professionals joined volunteers across Ontario to help The Beer Store raise funds for The Leukemia and Lymphoma Society of Canada by participating in the client's annual Returns for Leukemia Bottle Drive.

CGI members from all levels, along with the help of their family and friends, showed their support for this fundraiser, helping The Beer Store exceed its goal of raising \$1 million dollars.

Following the two-day event, The Beer Store's senior management team praised the CGI volunteers for their community spirit, professionalism, enthusiasm and energy. CGI plans to participate in the annual bottle drive next year, playing an even greater role by getting involved in its planning and marketing.

## Sustainability

CGI has been a sustainable company long before sustainability was even a trend. Our founding principles and operational model promote the continuous economic, social and environment development of the communities in which we live and work.

**100%**  
of our  
operations are  
ISO 9001 certified

consistency

“2010 is the first year that donations from our annual Returns for Leukemia bottle drive surpassed \$1 million. This milestone is a testament to the generosity of Beer Store customers and the community commitment of those who volunteered their valuable personal time. With CGI, we’ve found a partner that not only supports our business needs, but shares our passion for corporate social responsibility. Through Returns for Leukemia, CGI demonstrated its commitment to our communities as well as our company. After working with CGI for a year, I am proud of the partnership that we have solidified together.”
