Rapidly Implemented Oracle (RIO)

R apidly Implemented Oracle (RIO) provides rapidly deployed, repeatable, affordable, flexible, industry-specific solution for midsize organisations, implemented rapidly using prebuilt accelerators, delivered with the proven expertise of a skilled partner. Easy to implement and maintain, it still provides the security and powerful functionality of enterprise-class solutions at a fraction of the cost.

THE CHALLENGE

World over, mid-sized companies are keen to evaluate IT solutions that can help them grow rapidly and improve operational efficiencies without disrupting business - and without breaking the bank! They want the advantages of having access to an industry-leading set of tools for rapid implementation of business applications that reduces time, cost, and implementation risks and are based on country- and industry-specific best practices and business processes.
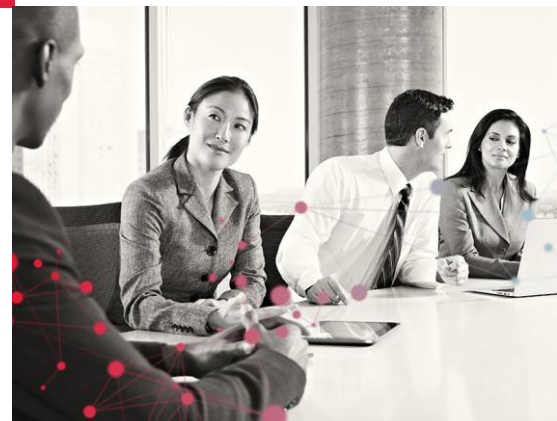

OUR ANWSER

Rapidly Implemented Oracle (RIO)

RIO is our answer. It is CGI's Oracle Accelerate E-Business Suite solution for the business services industry that offers standardised business processes tightly linked to best practice and baseline E-business suite functional and technical solutions.

RIO provides the strategic platform you will need for immediate and future business needs: a powerful, easy-to-use next generation tools for rapid and precise implementation. It provides prebuilt accelerators, collateral, tools and process flows that can do most jobs with minimal custom configuration. You get a higher level of control over your processes, without the lengthy implementation period usually associated with deployments of this nature.

Accelerators

We combine use and delivery of the tools for quick implementation, templates and good business practices specific to your region and industry, dramatically reducing implementation time, complexity, cost and risk.

FACT SHEET

RAPIDLY IMPLEMENTED ORACLE

Benefits:

- **Affordability** - Reduce your total cost of ownership (TCO)
- **Rapid time to value** - Accelerate implementation with built-in integration and industry best practices within standardised business processes
- **Predictability** - high quality and reliable results
- **A safe investment** - Establish a strong foundation for growth with a proven, scalable world-class application and the most modern technology
- **Reduced risk implementation** - Rapid implementation and adoption with clearly defined project scope and industry best practice and functionality.

Expert delivery

With us you get a partner whose extensive experience has helped to develop a deep understanding of industry best practices, geographical awareness, and product capabilities. Our belief and investment in this approach makes RIO a proven, best-in-class solution that will jumpstart the implementation of enterprise-wide solutions and dramatically reduces the time and costs to do it.

Using intellectual property from both Oracle and our team, RIO reduces implementation alignment, setup, and testing project phases. The result is predictable and expedited access to proven solutions that minimise the risk of new technology adoption.

Everything you need. All in one place

We couple this with complete documentation and training, reducing both the time and cost. The system can be implemented on-site or hosted and managed by CGI's software-as-a-service (SaaS) platform. CGI's SaaS offer encompasses a subscription-based pricing model, providing attractive costs to organisations of all sizes regardless of number of users.

Baseline or customized

The solution baseline includes multiple finance, HR & payroll functions. It can also include unique industry features such as credit management, collections management, service costing and profitability, automatic field engineer scheduling and service contract management.

WHY WORK WITH CGI

We are the only organisation that can offer you a proposition that embraces proven Oracle technology on a modern, flexible delivery platform. We are a member of the Oracle Accelerate programme and a Platinum level partner of Oracle Partner Network (OPN).

Delivering rapid return on investment, through the use of Rapidly Implemented Oracle, We can deliver the solution your business needs in weeks rather than months or years. We provide a 'local' service based on trust, quality and value for money, which harnesses the perfect blend of global industry experience and technical know-how.

ABOUT CGI

With over 68,000 professionals in 40 countries, CGI fosters local accountability for client success while bringing global delivery capabilities to clients' front doors. Founded in 1976, CGI applies a disciplined delivery approach that has achieved an industry-leading track record of on-time, on-budget projects. Our high-quality business consulting, systems integration and outsourcing services help clients leverage current investments while adopting new technology and business strategies that achieve top and bottom line results. As a demonstration of our commitment, our average client satisfaction score for the past 10 years has measured consistently higher than 9 out of 10.
