Mobile Solutions

Solutions that follow you, wherever you go... enabling **Smart People** undertaking **Smart Working** with **Smart Applications** resulting in a **Smart Successful Modern Business**

Mobile solutions are now a key factor to increasing your productivity, improving your service access and building customer loyalty. Delighting your customers with a fast responsive and accurate service is core to modern business survival.

Having recently won SAP's coveted Quality Award for delivering a large scale mobile solution, CGI is confident that we will enable your business to achieve the following:

Increased efficiencies
- Process streamlining
- Paperwork elimination
- Removal of duplication

Exceed customer expectations:
- Accurate information
- Right first time
- Up-to-date

Increase employee / team productivity
- Released from office hours
- Information at their fingertips
- Faster internal communications
- Colleagues prosper with the increased connectivity of their mobile co-workers

By exploiting mobile solutions an organisation can ensure that they are 'at the table' rather than 'on the table'.

MOBILE SERVICES

From mobile banking and insurance quotes and accident reporting to the creation of mobile-friendly content for municipal services, CGI has helped clients in various industries stay ahead of the constantly evolving mobile environment. Our mobile services include:

- Strategy and positioning
- Prototype and proof of concept production
- Mobile application and website deployment and development
- Maintenance and support

Ovum: "The surprise of this project is the speed with which systems integrator CGI delivered the first of six customer container-based applications that make up the Toughbook 2 project"

FACT SHEET
Why CGI for mobility?

- Excellent track record, second to none
- We delivered the largest Unwired Platform based mobile application in the UK
- Focused on business benefit delivery rather than technology
- Intuitive applications
- Collaborative approach
- Rapid Implementation approach using our AGILE methodology
- Influencer with SAP Mobile Strategy – for example we identified mobile document management functions of SAP Afaria. DMS is now included in Afaria
- SAP centric approach.

HOW WE DO IT

Ovum highlighted in a recent report "the speed with which systems integrator CGI delivered". CGI's mobility experts have the experience needed to implement mobile solutions in your organization. Our experience ranges from building and delivering complex award winning native applications, to hybrid and web applications.

We utilise the latest AGILE techniques to deliver robust, high quality mobile applications and services to our clients. With many years' experience of the SAP Mobile Platform and mobile application development, we know what it takes to deliver value-adding mobile solutions for an organisation.

In all our mobile projects we are conscious that end users, not the IT department, are the people who will use an application. Our designs and User Interfaces are built with end user operability in mind, being intuitive, easy to use and robust.

MOBILE EXPERTISE

- Mobility industry analysts
- Mobile e-commerce platform builders
- HTML5 SAPUI5
- SAP Mobile Platform
- SAP Afaria Device Management
- Mobile user interface experts and ergonomists
- Mobile system integration

  - Adobe Air
  - Android
  - Blackberry
  - iPhone and iPad
  - Mobile Web
  - Windows Phone 7
  - Windows 7
  - Windows 8

CGI can also accelerate the development and integration of mobile solutions through our proprietary back-end tools—the CGI Mobility Gateway and CGI OmniGateway.

DON'T JUST TAKE OUR WORD FOR OUR CAPABILITY …

Ovum Report June 2012 Extracts

"The biggest surprise of the Toughbook 2 project was its speed to delivery

Anglian Water's enterprise applications are virtually end-to-end SAP, making it an attractive demonstration of Sybase interfacing with SAP's back-end systems. The surprise of this project is the speed with which systems integrator CGI delivered the first of six customer container-based applications that make up the Toughbook 2 project"

ABOUT CGI

With over 68,000 professionals in 40 countries, CGI fosters local accountability for client success while bringing global delivery capabilities to clients' front doors. Founded in 1976, CGI applies a disciplined delivery approach that has achieved an industry-leading track record of on-time, on-budget projects. Our high-quality business consulting, systems integration and outsourcing services help clients leverage current investments while adopting new technology and business strategies that achieve top and bottom line results. As a demonstration of our commitment, our average client satisfaction score for the past 10 years has measured consistently higher than 9 out of 10.

0029 0613
