Basic Commerce and Industries, Inc. | Basic Commerce and Industries, Inc. (BCI) is a small business headquartered in Moorestown, NJ, providing engineering support for Navy applications to government and commercial customers. Areas of focus include lifecycle maintenance support for technical capabilities, efficiency improvements for process operations, process mapping, quality assurance support for engineering & analytical disciplines, process reengineering, enterprise architecture, systems integration, migration of legacy based systems to client server web based systems, software development life cycle support and testing, database technologies and web portal development.

Definitive Logic Corporation | Definitive Logic Corporation specializes in the following areas: Application development (SOA, .Net, Java, J2EE, Oracle, OLAP), enterprise architecture (portfolio management, BMMP/BEA, C4ISR, GIG), business process management (lean six sigma, workflow, process automation, business process reengineering (BPR), applied statistics (Data mining, modeling and simulation, operations research, quantitative analysis), automation, business process reengineering (BPR), enterprise architecture, systems integration, migration of legacy based systems to client server web based systems, software development life cycle support and testing, database technologies and web portal development.

Eagle Systems | Eagle Systems is an independently-owned business specializing in engineering, technical, logistical, and administrative support of defense and surface weapon systems for the DoD and in particular for the U.S. Navy. The company provides technical support in a wide range of areas including, but not limited to, engineering analysis, design, development and management of integrated, customized engineering solutions; mission analysis; program goals and objectives; and requirement analysis and assessment.

Evalu8, Inc. | Evalu8’s team of talented and dedicated employees average more than 25 years of Navy-Marine Corps experience. Our professional team has extensive experience in testing and evaluation spans from prototype development systems through the delivery of the production systems. Our expertise is in the areas of engineering analysis, design, development and management of integrated, customized engineering solutions; mission analysis; program goals and objectives; and requirement analysis and assessment.
GTSt Corporation

GTSt Corporation (GTSt) is a recognized information technology solutions leader with more than two decades of experience competing with global IT vendors in the areas of strategic consulting, business applications, and technology distribution.

GTSt offers a wide range of services, including Systems Engineering, Software Engineering, Network Engineering, and Technology Management.

Cask Offers Clients a range of business and technology management services that enable organizations to achieve the active excellence. Cask's experienced professional work with customers to develop strategy, implement integrated solutions, and drive success.

Cask offers business and technology services to support clients in the following areas:

- Acquisitions and Development Management
- Process Engineering
- Solutions
- IT Service Management
- Technology and Engineering Services
- Value Network Management

Rite-Solutions provides Advanced Systems and Software Engineering Services; 3D Situational Awareness and Visualization capabilities; Real-Time Decision Support Enterprise and Transaction-Based Systems; and Computer-aided Training and Knowledge Management tools.

Rite-Solutions' was founded on our capability to develop, manage and support all types of Software systems in both the Government and commercial markets. We support the Navy’s needs with mission critical software architecture and development, as well as providing application development and support in the form of advance combat system development, Performance tools sets, and training of software intensive legacy systems.

Native Hawaiian Veterans, LLC (NHV) - NHV has been established and incorporated in the State of Hawaii as a Limited Liability Corporation since 2004 and is a disabled veteran and a Hawaiian-owned small business. NHV has certified service-disabled, veteran owned small businesses (SDVOSB) and has been certified as a Small Disadvantaged Business (SDB) in the Federal Government SDB program. Minority Business Enterprise (MBE), Underutilized Disadvantaged Business Enterprise (UDBE) and has received the Small Business Administration (SBA) certification as an 8(a) business. NHV has a corporate office in Honolulu, HI and outlying offices in Crystal City, VA and Seoul South Korea. NHV has had a maximum of 183 employees and currently maintains a base of 100 employees. NHV has the financial capacity to expand well beyond these numbers.

NHV has also directed the operations and maintenance of Command and Control Centers around the globe. In addition to our engineering experience, CAS personnel’s strong acquisition background provides our customers a proven ability to translate requirements into sustainable capabilities within lifecycle management to meet our customer’s needs.

Andromeda Systems Incorporated

Recognized leader in the fields of engineering, information technology, and logistics. Provides professional and technical services in engineering design and analysis, reliability engineering and analysis, informatics technology, logistics, process improvement and program management.

FastTrack delivers leading edge technologies, state of the art tools and battle tested processes to help modernize military command and control (C2) and intelligence, surveillance and reconnaissance (ISR) operations, and to protect the physical and information infrastructure of the USA. They also provide systems engineering and intelligence support to national agencies and to military operations around the world.

Professional Solutions Delivered, LLC

Professional Solutions Delivered, LLC is a leading provider of engineering services that will increase their market share. We concentrate on services and software technologies in support of the Information, Energy, Security, and Efficiency, Cyber Security, Surveillance and Reconnaissance (ISR), Weapon Systems, and other related Performance Enabling Technologies. We are experts in electronics, mechatronics, software, and industrial engineering.

STIMUS, LLC

STIMUS, LLC is a leading provider of engineering services that will increase their market share. We concentrate on services and software technologies in support of the Information, Energy, Security, and Efficiency, Cyber Security, Surveillance and Reconnaissance (ISR), Weapon Systems, and other related Performance Enabling Technologies. We are experts in electronics, mechatronics, software, and industrial engineering.

Corps Solutions, LLC

Corps Solutions, LLC is a leading provider of engineering services that will increase their market share. We concentrate on services and software technologies in support of the Information, Energy, Security, and Efficiency, Cyber Security, Surveillance and Reconnaissance (ISR), Weapon Systems, and other related Performance Enabling Technologies. We are experts in electronics, mechatronics, software, and industrial engineering.

ZelTech delivers leading edge technologies, state of the art tools and battle tested processes to help modernize military command and control (C2) and intelligence, surveillance and reconnaissance (ISR) operations, and to protect the physical and information infrastructure of the USA. They also provide systems engineering and intelligence support to national agencies and to military operations around the world.

G2 Ops, Inc

G2 Ops, Inc is a leading provider of engineering services that will increase their market share. We concentrate on services and software technologies in support of the Information, Energy, Security, and Efficiency, Cyber Security, Surveillance and Reconnaissance (ISR), Weapon Systems, and other related Performance Enabling Technologies. We are experts in electronics, mechatronics, software, and industrial engineering.

Galcoff Incorporated

Galcoff Incorporated is a leading provider of engineering services that will increase their market share. We concentrate on services and software technologies in support of the Information, Energy, Security, and Efficiency, Cyber Security, Surveillance and Reconnaissance (ISR), Weapon Systems, and other related Performance Enabling Technologies. We are experts in electronics, mechatronics, software, and industrial engineering.

ProSoDel successfully manages projects, tests software and implements software solutions that provide tactical and strategic advantage to our customers. We apply best practices in data configuration, data analysis, risk management, earned value management, earned value-based approaches, project management, and earned value management for cost and schedule control and cost estimation.
Optimal Solutions Integration, Inc. provides onsite training services to organizations in industry and government, with customers from California to Florida. All our consultants who develop and design technical training have degrees from institutions such as UCLA, Fox Channels Group, Chicos FAS Inc., and California State University, and our consultants have provided training services for organizations such as U.S. Air Force, US Navy, Los Angeles County, Metropolitan Water District, Warner Bros., and other government agencies. Our consultants provide training services in response to customer needs, and we have provided training services to the U.S. Air Force, U.S. Navy, Los Angeles County, Metropolitan Water District, Warner Bros., and other government agencies.
